Rigid insulated duct

11091347
ALFLEX compact gas kit Ø 125

ALFEX Compact Gas connects a boiler and a terminal on a gas CMEV system in accordance with requirements of DTU 68.3 and DTU 24.1.

PRODUCT BENEFITS
• duct compacted for transport and storage,
• range compliant with gas CMEV requirements,
• M0 fire certification.

Product description

ALFEX Compact Gas connects a boiler and a terminal on a gas CMEV system in accordance with requirements of DTU 68.3 and DTU 24.1.

Fields of application

Multi-occupancy residential housing, Individual residential housing, New, Refurbishment, Non-residential buildings

Installation

• slot-in connection with specific reducer, without reducing nozzle diameter,
• BAZ Ø 125: slot-in connection without stretching hose on BAZ Ø 125,
• BAZ Ø 120: slot-in connection using sleeve 125/120.

Reference arguments

Application:
• Connection between Gas CMEV boiler to terminal compliant with DTU 683 and DTU 241 requirements
• Prohibited for condensation gas CMEV
• Maximum usage temperature: 400°C

Description:
• Aluminium sheet 15/100e mm stapled in spiral form
• Packaging: 1.5 m compacted to 30 cm
• Fitted to boiler using specific reduction, without reducing nozzle diameter
• BAZ Ø 125: Slotted directly without stretching the hose on BAZ Ø 125
• BAZ Ø 120: Slotted using sleeve 125/120
• Class A1 (M0)

Main characteristics

• aluminium sheet 15/100e mm with spiral stapling,
• Packaging: 1,5 m compacted into 30 cm,
• M0 fire certification (A1),
• operating temperature:
- normal: 250 °C,
- maximum: 400 °C.
• compliant with requirements of DTU 68.3 and DTU 24.1,
• Qualigaz certification (indelible marking),
• prohibited for use on condenser gas CMEV.
