

Air purification and heat recovery ventilation

11034386

Anti-vibration mountings (pack of 4)

Product description

The anti-vibration mountings are rubber shock absorbers which absorb the vibrations generated by a fan or central unit. They are supplied with fasteners and support plate. Available in different diameters and shore densities.

Fields of application

Multi-occupancy residential housing, New, Refurbishment, Non-residential buildings

Installation

- caution: cannot be installed outside a belt-driven box fan.

Reference arguments

Application:

- Absorbs vibrations of a fan or unit

Description:

- 4 rubber shock absorbers shore density 60/10Kg per mounting
- supplied with fasteners and support plate

Main characteristics

- Type of mounting:
 - 11034385: shore 45 and diameter 40,
 - 11034386: shore 60 and diameter 40,
 - 11034380: shore 45 and diameter 60,
 - 11034388: shore 60 and diameter 60.

General data

Variants	Maximum load (kg)
11034386	10
