BAP'SI S2-Modulo shaftless - White

The BAP 'SI Fixed bath/WC terminal is ideal for new construction projects - it ensures a constant airflow whatever the conditions inside the dwelling.

BAP'SI fixed airflow bath/WC terminal

PRODUCT BENEFITS

- easy to install
- Roll-in seal
- simple to clean

Principles of operation

In a self-balanced CMEV system, the airflow is constant whatever the ambient conditions or presence in rooms.

Product description

BAP'SI is a self-balanced fixed airflow extract terminal for new and refurbished multi-occupancy residential buildings. BAP'SI boasts an innovative design with a Roll-In seal.

Fields of application

Multi-occupancy residential housing, Individual residential housing, New, Refurbishment, Non-residential buildings

Installation

- BAP'SI Fixed airflow Bath/WC must be installed in humid rooms,
- the terminal must be installed at the top of a vertical wall or on the ceiling,
- the terminal must be accessible and removable,
- versions with shaft D 125 mm slots into sleeves, RT Flex, semi-rigid or rigid ducts. The Roll-in seal ensures air tightness and flush fitting against the wall.
- Shaftless versions are clipped onto shafts D 125 mm, D 116 mm or D 100 mm. The terminal is screwed directly onto the wall or clipped onto a retrofit plate.

Reference arguments

- Self-balanced single-airflow extract terminal.
- Innovative design, no grille.
- Versions and accessories to meet all installation needs.
- Comprises 3 parts: technical backplate, controller, removable front panel.
- Easy to clean: control sub-assembly quick to clip on and unclip.
- Modulo range: same terminal for several adjustable airflows (see product range table).
 Modulo S1: for WC and bathrooms in multi-occupancy housing. S2: for WC/bath and small non-residential buildings.
- Pressure range: 50-160 Pa.
- Tolerance on airflow: -0; +30%.

11019095 BAP'SI S2-Modulo shaftless - White

Main characteristics

- innovative design, no grille,
- versions and accessories to meet all installation needs,
- modulo range: same terminal for several adjustable airflow settings,
- easy to clean: control sub-assembly quick to clip on and unclip,
- pressure range: 50 160 Pa.
