11052294 BIM2 300 White - D200

The BIM2 300 small terminal is used for wall-mounted air supply and supply or return when ceiling mounted - all applications in exhaust or HRV ventilation systems in small non-residential buildings.

BIM2 300 D200

PRODUCT BENEFITS

- simple to install in all ceiling types.

Principles of operation

The BIM2 300 small terminal is used for wall-mounted air supply and supply or return when ceiling mounted - all applications in exhaust or HRV ventilation systems in small non-residential buildings.

Product description

The BIM2 300 is a small decorative aluminium terminal used on air supply and return applications in all exhaust or HRV ventilation systems in small non-residential buildings. Available from Ø 125 to Ø 200 mm.

Fields of application

New, Refurbishment, Non-residential buildings

Installation

- can be installed on wall (air supply) or ceiling (supply and return),
- safety cable supplied must be used if installed in ceiling.

Reference arguments

- BIM2 300 injection-moulded aluminium terminal with attractive finish
- Epoxy paint finish, RAL 9010 white, 30% matt,
- Used for supply air when wall-mounted and for return air either wall or ceiling-mounted
- D200
- Airtight seal
- Clipped directly into dedicated metal sleeve (available in accessories). The Aldes sleeve is essential for safe installation. This sleeve is fitted with brackets for fast «quarter-turn» installation, suited to BA13 or plaster ceilings.
- The safety cable supplied must be used if the terminal is installed in a ceiling position

Main characteristics

- injected aluminium terminal with attractive finish,
- epoxy paint finish, RAL 9010 white, 30% matt,
- clipped directly into dedicated metal sleeve,
- sleeve fitted with brackets for fast «quarter-turn» installation, suited to BA13 or plaster ceilings.
