BMF PLUG GALVA - D250

The Male - Female Plug seals off a galvanised steel duct or accessory in commercial and multi-occupancy residential buildings.

Male-Female Plug

Product description

The BMF male-female plug is a galvanised steel duct accessory used to seal off a circular galvanised steel or accessory in commercial buildings and multi-occupancy residential buildings.

Fields of application

Multi-occupancy residential housing, New, Refurbishment, Non-residential buildings

Installation

- easy assembly of interlocking accessories: ducts are female, accessories are male,
- Final seal requires sealant and/or perforated strip,
- attached to duct using self-tapping screws (4 to 6 depending on diameter).
