BMO PLUG GALVA - 975x265

The Oblong Male Plug seals off an oblong duct system in commercial and multi-occupancy residential buildings.

PRODUCT BENEFITS

- small size for high airflow,
- good airtight performance and controlled pressure losses,
- easy to install and maintain (no inaccessible corners).

Product description

The BMO oblong male plug is an oblong galvanised steel duct accessory used to seal off an oblong duct in commercial buildings and multi-occupancy residential buildings.

Fields of application

Multi-occupancy residential housing, New, Refurbishment, Non-residential buildings

Installation

- easy assembly of interlocking accessories: ducts are female, accessories are male,
- Final seal requires sealant and/or perforated strip,
- attached to duct using self-tapping screws (4 to 6 depending on diameter).

Reference arguments

Application:

- Oblong accessories for installation of ventilation systems in confined spaces (suspended ceiling, horizontal side flues conveying high airflow, etc.)
- Plug used to close a section of oblong ducting.

Description:

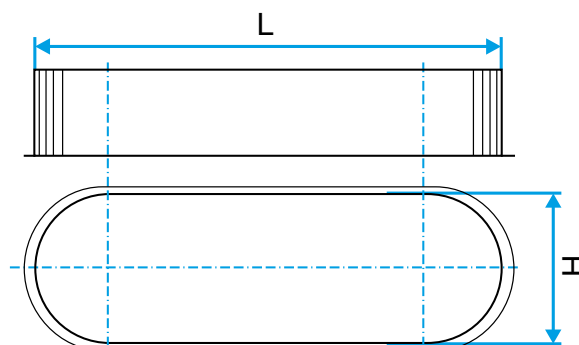

- Oblong male plug made of galvanised steel.
- Length 975 mm and height 265 mm.

Main characteristics

- standard dimensions (20 oblong sections),
- galvanised steel as per EN 10346 ensuring uniformity of coating,
- M0 fire certification.
