# 11091243 BS GALVA BAR 3 m - Ø 125 mm

Circular galvanised steel ducts are ideal for all types of air distribution systems.

Galvanised steel circular ducts

Galvanised steel circular duct

# PRODUCT BENEFITS

# **Product description**

Circular galvanised steel ducts are ideal for all types of air distribution systems. They are available in lengths of 3 m or 2.47 m.

#### **Fields of application**

Multi-occupancy residential housing, New, Refurbishment, Non-residential buildings

#### Installation

- accessories easily slotted on: ducts are female, accessories are male,
- attached using collars or perforated strip, rails, etc. (see installation accessories pages).

#### **Reference arguments**

#### Application:

• Used to connect any air distribution ducting.

# Description:

• Galvanised steel straight, circular duct stapled in spiral pattern, length 3 m Ø125.

#### **Main characteristics**

- standard bar length: 3 m,
- storey elements (2.47 m), designed for use as risers in multi-occupancy residential buildings, are ideal for coupling with CRE storey collectors and enable faster assembly,
- range available from diameter 80 to 900.
- ribbed tubes with smooth end pieces to ensure airtight seal on rigid connections,
- M0 fire certification,
- compliance with standards NF EN 1506 and NF EN 12237.

#### **Accessories**
