

Axial heat and smoke exhaust fan

# 11055038

## CM MOTOR 230-L ON/OFF

### Product description

These proportional or on/off motors, with or without spring return, 1 or more contacts, are used to drive circular and rectangular dampers as well as the MR Max motorised airflow regulator

### Fields of application

New, Refurbishment, Non-residential buildings

### Installation

- fitted directly to the damper plate using the clamp collar,
- proportional motor: adjustable motor travel using stops.

### Reference arguments

- Belimo servomotor CM 230-L On/Off without 3-point return spring
- Torque: 2 Nm.
- Voltage: 230 V AC.
- Travel time: 75 sec / 90°.
- Air tightness: the IP54.
- 1m PVC cable connection.
- Anti-clockwise rotation.
- Used to motorise RGE dampers Ø125 to Ø200 mm.

### Main characteristics

- proportional or on/off,
- with or without spring return,
- information reporting: 1 or more contacts,
- 24 or 230V,
- torque 2 to 20 N.m,
- IP54.
