

Connector**11093822**
CS 90° Y-PIECE GALVA - D710

The 90° Y-piece enables confluence of 2 galvanised duct branches at 90° from each other.

Culotte Simple 90°

Product description

The 90° Y-piece enables confluence of 2 galvanised duct branches at 90° from each other. Its aeraulic design means limited pressure loss, especially when used for air supply.

Fields of application

Multi-occupancy residential housing, New, Refurbishment, Non-residential buildings

Installation

- easy assembly of interlocking accessories: ducts are female, accessories are male,
- Final seal requires sealant and/or perforated strip,
- attached to duct using self-tapping screws (4 to 6 depending on diameter).

Reference arguments

Application:

- Accessory to join two ducting branches at 90° from each other
- Aeraulic design means limited pressure loss, especially when used for air supply

Description:

- Single Y-piece 90° diameter 710 mm galvanised steel

Main characteristics

- available in diameters from 80 to 900,
- galvanised steel as per EN 10346 ensuring uniformity of coating,
- MO fire certification.
