

# 11090007

## Digital pressure gauge + carry case

This pressure gauge is ideal for manual checks on CMEV and gas CMEV systems.

### PRODUCT BENEFITS

- ready to use,
- easy to use
- reliable.

### Principles of operation

The pressure is measured using 2 tubes and the result is displayed directly on the screen.

### Product description

This pressure gauge makes it very easy to measure the pressure in a ventilation and air conditioning system. It features 2 pressure taps with Pitot tube and screen for immediate display of results.

### Fields of application

Multi-occupancy residential housing, Individual residential housing, New, Refurbishment, Non-residential buildings

### Installation

The two pressure taps are installed on either side of the ducting element where the pressure is measured.

### Reference arguments

Application:

- Pressure measurement on ventilation and air conditioning systems.

Description:

- Numerical pressure display in Pa.
- Accuracy: +/-20 Pa over a range -9800/+9800 Pa.
- Functions include manual/auto reset, hold, min-max values, auto-shutdown, back lighting.
- Supplied with Pitot tube, 2 x 1 m of tube, stainless steel end piece, carrying bag.

### Main characteristics

- Digital display of pressure in Pa,
- Accuracy: +/-20 Pa over a -9800/+9800 Pa range,
- manual auto-reset, hold, min-max values, auto-stop, backlight functions,
- Supplied with Pitot tube, 2 x 1 m of tube, stainless steel end piece, carry bag.

### Supplementary characteristics

- supplied ready for use in a case with 9V battery.
