EC motor 0-10V 20K potentiometer for TAHA-TAVA micro-watt

**Product description**

This potentiometer is a voltage controller for EasyVEC® Compact.

Fields of application

New, Refurbishment, Non-residential buildings

Installation

- only compatible with EC motor.

Reference arguments

Application:

- Voltage controller for EC motor 0-10 V 20 K Ω

Description:

- IP54 box White
- Potentiometer 0-10 V
- Built-in EMC filter
- Maximum ambient temperature = 35°C

Main characteristics

- for EasyVEC Compact 2000 model.
