

## Ventilation box fan

11034986

## EasyVEC® C4 ULTIMATE 400

The best-designed range of exhaust box fans on the market, making ventilation efficient, serene, and easy.

EasyVEC-C4-ULTIMATE-400

EasyVEC-C4-ULTIMATE-400

## PRODUCT BENEFITS

- wide range from 400 to 4,000 m<sup>3</sup>/h,
- up to 15% saving on building heating costs compared to Standard unit,
- 100% recyclable.

## REGLEMENTATIONS AND COMPLIANCES

Technical Opinion no.: 14.5/17-2267\_V3 ; 14.5/16-2185\_V2

## Principles of operation

EasyVEC® C4 ventilates multi-occupancy residential buildings to ensure correct air quality in dwellings and preserve the building structure.

## Product description

EasyVEC® C4 ULTIMATE ventilates multi-occupancy residential buildings to ensure correct air quality in dwellings and preserve the building structure. Combined with the T.Flow® Hygro+ / Nano domestic hot water production solution, the heat calories naturally present in air extracted from the dwelling are exchanged and used as a heat source to heat the water.

The Aldes MICRO-WATT + patented controller automatically creates a custom regulation profile (Auto-Adaptative Technology) to adjust the pressure delivered by the box fan to the actual needs of the system. This means the ventilation adjusts precisely to needs and generates significant savings on heating costs.

AldesConnect™ Pro can remotely monitor your fan units for greater responsiveness in handling breakdowns and malfunctions.

## Fields of application

Multi-occupancy residential housing, New, Refurbishment

## Installation

- installation:
  - on anti-vibration slab as per DTU 68.3 recommendations,,
  - indoor or outdoor location,
  - sufficient space must be left in front of the box fan to avoid obstructing the access panel and allow maintenance of internal components.
  - for roof installation, preferably positioned out of the wind to limit pressure losses at the outlet.
- For better acoustic and aeraulic performances, we recommend that you:
  - install sound attenuators at the unit connections,
  - use the ALDES VIRTUO-FIX range of sealed accessories,
  - use MS PRO sealed flexible sleeves to muffle ductwork vibrations.

## Reference arguments

- Application:
  - C4 very low consumption centralised unidirectional extractor fan for CMEV system,
  - new and refurbishment,
  - Micro-Watt+ Aldes Auto-Adaptive Technology™ controller for controlled pressure,
  - attic / equipment rooms / flat roofs,
  - indoor / outdoor.
- Description:
  - EasyVEC® C4 Micro-Watt+ very low consumption exhaust fan unit (C4 certification: 400°C - 1/2 hour),
  - easy to select: Selector poWair® and Conceptor Ventilation design software,
  - easy to configure via intuitive interface,
  - easy to service: link to documentation via QR code, single access panel, compatible with AldesConnect™ Pro supervision service (optional),
  - very low consumption.

## Ventilation box fan

11034986

EasyVEC® C4 ULTIMATE 400

## Main characteristics

- Micro-watt+ control and patented Aldes Auto-Adaptive Technology™ software to adapt the pressure delivered by the unit to the actual needs of the system,
- 4 other additional control modes:
  - Micro-watt at constant pressure,
  - 0-10V input,
- constant airflow,
- constant speed.
- EC motor with very low power consumption (50/60 Hz),
- backward curve impeller,
- unit made of galvanised steel Z275,
- plenum fitted with acoustic insulation,
- ergonomic and intuitive interface,
- proximity switch as standard,
- humidity-controlled or pre-configured T.Flow control mode
- compatible with all types of ductwork, even with junctions,
- central system: savings on maintenance,
- alarm relay available by wiring to the PCB,
- Modbus RS485 as standard.
- options:
  - AldesConnect® Pro fitted in factory,
  - Anti-corrosion epoxy paint, cat. C5-M 5 years,
  - fixed pressure switch 80 Pa for GAS CMEV, factory-mounted,
  - ducted discharge (accessory).
- made in France.

## Supplementary characteristics

- certification C4 Ø160,
- compatible with «Bahia» humidity-controlled ventilation technical approval no. 14.5/17-2267,
- ESC-eligible: BAR-TH-127.
