Flexible outlet sleeve kit 500 mm

Product description

This kit is used to separate the fan unit from the extract system (as per requirements of DTU 68.3), to prevent the transmission of vibrations. It is used to duct the unit outlet using a connector compatible with the EasyVEC range, a flexible sleeve and clamp collars. Select a kit according to the fan unit.

Fields of application

Multi-occupancy residential housing, New, Refurbishment, Non-residential buildings

Installation

- for installation between the extraction unit and the rigid galvanised ducting.

Main characteristics

- deformable fabric in material certified A2-s1, d0,
- galvanised steel serrated clamp collars.

Contents of kits

Connector compatible with EasyVEC®, flexible sleeve and two clamp collars.
