

Transfer grille**11041915
GFA ALU HINGE KIT**

The GFAP decorative grille serves to conceal openings or smoke control dampers.

Grille GFAP

PRODUCT BENEFITS

- identical to GFA Alu,
- several attachment methods possible: screws, clips or hinges,
- aesthetic and aerodynamic fin profile.

Principles of operation

The GFAP grille can protect and decorate a smoke control damper or an opening, when installed against the wall.

Product description

The GFAP is identical to the GFA Aluminium, only the nominal dimensions are different. The choice of dimensions depends on the opening to conceal (no link with the X and Y dimensions of an Aldes damper). This decorative grille conceals any opening or damper by its attachment to the wall.

Fields of application

New, Refurbishment, Non-residential buildings

Installation

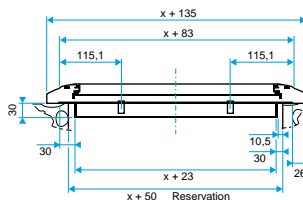

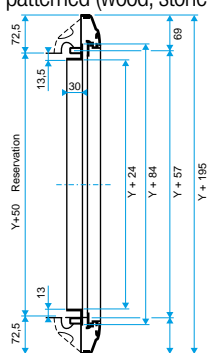

- installed directly on wall surface with or without mounting frame,
- attachment:
 - screwed attachment directly to wall,
 - screwed, clip or hinged attachment to mounting frame.
- hinged attachment:
 - requires hinge kit and adapter kit for hinges on mounting frame,
 - for grille where $Y \geq 700$ mm, use 2 hinge kits and 2 hinge adapters.
- possible to space the GFAP from its mounting kit using the adjustment kit.

Transfer grille

11041915 GFA ALU HINGE KIT

Main characteristics

- choice of dimensions (X,Y) according to mounting points and dimensions of opening,
- dimensional range X x Y:
 - $200 \leq X \leq 1,225$ mm (in 5 mm increments),
 - $200 \leq Y \leq 1,500$ mm (in 25 mm increments).
- fixed fin core,
- finishes:
 - standard natural anodised finish,
 - high-resistance epoxy paint possible depending on RAL colour desired,
 - ALDES ARCHITECT finish: metallic paint finish or patterned (wood, stone, etc.).
