**Thermal insulation** 

Dual-flow ventilation solution that beats to the rhythm of the occupants' lives.

## PRODUCT BENEFITS

The ideal range for installation in suspended ceilings or on the floor for new or renovated housing For a «quick» installation and commissioning Product performance and air quality benchmarks on the market

#### **Principles of operation**

General and permanent ventilation of the dwelling with heat recovery from the extracted air to preheat the incoming air. This air is purified by customizable filters that ensure healthy air in the home.

#### **Product description**

Dual-flow ventilation solution with heat recovery that allows incoming air filtration and indoor air renewal without heat loss.

Main characteristics

material:

- PPE - recyclable expanded polypropylene

configuration:

- 4 spigots Ø 160 mm
- Condensate connection with Ø32 mm outlet

available flow rates:

- 150, 180 and 300 m<sup>3</sup>/h at 200 Pa.

The range that suits all installation projects in false ceilings or on the floor

- Best size/weight compromise on the market with weights from 12 to 14 kg maximum

- Different finishes to best meet user and home expectations: Prima, Classic, Classic DHU (with detection for automatic action against humidity peaks in the home), Classic ERV DHU (with enthalpic exchanger preserving the home's humidity level and with detection for automatic action against humidity peaks in the home)

For «quick» installation and commissioning:

- choice of airflow direction at commissioning
- unique electrical box design for easy connection of all desired accessories
- electrical cable included
- commissioning assistant included in the remote control for easy start-up

Product performance and air quality benchmarks on the market

- Multi-certified products with aerodynamic and thermal performances benchmarked on the market

Complete range of distribution boxes, networks, and associated grilles to guarantee a performant and durable network over time

Humidity sensor integrated into the product (DHU models)

The widest range of filters on the market

Numerous wireless sensors and controls available

#### **Thermal insulation**

# 11027138 INSPIRAIR SIDE 300 CLASSIC DHU KIT

#### **Supplementary characteristics**

- Range with certified European Ecopassport
- Standard Modbus connection for Smart-home or BMS integration
- Exclusive radon mode
- Weekly programming possible via remote control or Aldes Connect app
- Compatible with the Aldes Connect app allowing residents to monitor and control their ventilation
- Range included in Aldes professional tools for study, selection, and costing
