

Fire damper

11043349

ISONE® 2.1 FTE70 Ø 250 mm Stock

ISONE® 2.1 dampers are simple to select: a single model for all partitions and all fire resistance levels.

Clapet ISONE® 2.1 circulaire

PRODUCT BENEFITS

- Single damper model for all partitions: easy to select
- Ergonomic quick reset handle: 2 seconds suffice.
- Optional stainless steel pin for harsh environments
- Optional remote control box, 0.7 m or 3 m cord
- ALDES SecurONE application for damper data collection and sharing
- Single mechanism, from the simplest to the highest-spec damper: easy to choose, install and maintain

REGLEMENTATIONS AND COMPLIANCES

PV CE number : 1812-CPR-1837

PRINCIPLES OF OPERATION

- The damper is open in standby position.
- It opens when instructed by the FACP or thermal rod and moves into safety position (closed).
- Being motorised, it can be reset remotely.

Product description

Fire dampers for non-residential buildings (public access building, high-rise)

They restore the fire resistance of partition walls crossed by a ventilation duct.

Equipped with 70°C fusible link trip device by default

Controllable by electromagnetic coil trip device: 24/48 V DC current emission; 24 V DC or 48 V DC current break

Reset motor 24/48 V DC

Fire resistance up to 120 minutes on all common partition walls.

Fields of application

New, Refurbishment, Non-residential buildings

Installation

- Mortar-free installation on lightweight walls, even with post-fitted frame
- Flush-mounted installation on:
 - Concrete and aerated concrete wall/slab
 - Plaster block wall
 - Type A plasterboards (1h) and type F (2h)
- Remote installation on PROMAT / GEOSTAF
- Positioned on lightweight walls using installation brackets
- EXAP EN 15882-2:2015, rules X.45 and X.46: extended opening dimensions
- Respect the fire rating reports when installing

Main characteristics

- Certified and compliant with NF S 61937-5 and NF 537
- CE marked as per EN 15650: 1812-CPR-1837
- Class C airtight properties as per EN 1751 as standard
- EI 120 S - 500 Pa on concrete / aerated concrete walls and slabs, type F plasterboard, remote installation on PROMAT / Geostaff
- EXAP EN 15882-2:2015, rules X.45 and X.46.
- Range from D100 mm to D900 mm

Fire damper

11043349

ISONE® 2.1 FTE70 Ø 250 mm Stock

Supplementary characteristics

- Fully upgradable mechanism
- Single damper adaptable to all walls
- Lightweight wall installation with post-fitted frame
- Reset handle indicating damper position
- Large electrical connection box
- Optional stainless steel pin for harsh environments
- Optional remote control unit
- Low pressure loss
