Insulated flat roof base with sound attenuator TAHA-TAVA 220

Product description

The insulated roof base with silencer prevents condensation, attenuates radiated noise and reduces noise pollution inside the building.

Fields of application

Multi-occupancy residential housing, New, Refurbishment, Non-residential buildings

Installation

- Flat or inclined roof without masonry base.

Reference arguments

Application:

- Insulated flat roof base with silencer for installation of TAHA/TAVA 220 roof fan on flat roof

Description:

- Aluminium unit for good corrosion resistance
- 30 mm internal thermal and acoustic insulation of walls to reduce noise and condensation
- Integrated sound attenuator with baffle to reduce noise

Main characteristics

- aluminium casing,
- 30 mm interior insulation to attenuate noise and condensation,
- sound attenuator built-in,
- inclined roof version 3° to 24° in increments of 3°.
