

Ventilation terminal kit**11023079****MINIGAINÉ kit 1 BIO air supply terminal**

Add-on kits for systems requiring MINIGAINÉ rigid ducts.

Additional extraction kit D125

PRODUCT BENEFITS

- easy to select,
- easy to install.

Principles of operation

Kits comprising terminals and sleeves suitable for MINIGAINÉ rigid duct systems.

Product description

The terminal kits for MINIGAINÉ propose accessories for full installation with rigid ducts.

Fields of application

Individual residential housing

Installation

- install sleeve in wall,
- slot terminal onto sleeve,
- ensure an airtight seal between the ducting and the sleeve.

Reference arguments

Application:

- Minigaine range: rigid plastic ducts and accessories for exhaust and heat recovery ventilation systems in individual houses, new builds or refurbishment

Description:

- BIO Design terminal, rectangular and dirigible for supply, connection to Minigaine
- Wall or ceiling-mounted
- Blanking plug for BIO Design terminal: adds 15 to 30 Pa pressure loss directly behind terminal to assist in balancing supply airflows

Main characteristics

The terminal kits for Minigaine include terminals and sleeves adapted to the regulation mode of exhaust or heat recovery ventilation units for single-family dwellings (Self-balanced or Humidity-controlled).

Contents of kits

- Bio Design rectangular terminal Ø 80 mm;1
- EQ mixed bend 80 mm;1
