OPTIFLEX® grey oval anti-bacterial duct 20 m

The first oval ventilation ducting for easy and reliable installation and which meets indoor air quality requirements.

Anti-bacterial duct - white

PRODUCT BENEFITS

- leaktight ducting,
- easy to install,
- strong.

Product description

OPTIFLEX oval ducts offer a semi-rigid plastic ducting solution to connect ventilation terminals to the fan unit in narrow non-heated areas of an individual house. They ensure the hygiene and quality of indoor air.

Fields of application

Multi-occupancy residential housing, Individual residential housing, New, Refurbishment

Installation

- accessories easily slotted into ducts using OPTIFLEX seals sold separately,
- use OPTIFLEX seals sold separately to ensure an airtight seal,
- lyre collars or perforated strips to attach ducts available as accessories,
- in all cases, to prevent pressure losses and sound propagations, limit the use of bends to a minimum.

Reference arguments

Application:

- Perfectly suitable for exhaust or heat recovery systems
- New builds or refurbishment
- Installation in suspended ceilings and partition walls
- Semi-rigid air distribution network for individual and multi-occupancy housing

Description:

- Easy to install and strong
- Smooth interior
- Dimensions: 132 x 52 mm, equivalent to D90
- Material: pure HDPE with anti-static and anti-bacterial treatments
- Flat duct for easy installation in confined configurations
