

Heat and smoke exhaust box fan accessory

11039160

ProtectONE® R 2-4-5 rain hood + screen

Product description

The screened rain hood is required to install the ProtectONE® R outdoors. It prevents water ingress in case of rain and the screen prevents birds from entering the ducting and reaching the unit. This accessory maintains the ProtectONE® R fan in good condition for optimal operation.

Fields of application

New, Refurbishment, Non-residential buildings

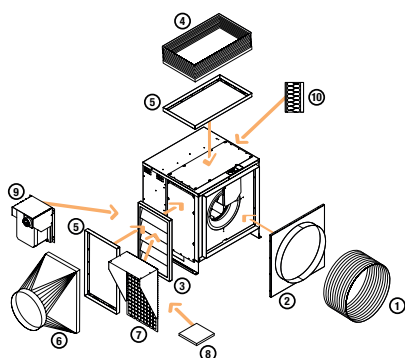

Installation

- installed on the outlet of the ProtectONE® R smoke and heat exhaust box fan,
- can be installed on the backdraft damper.

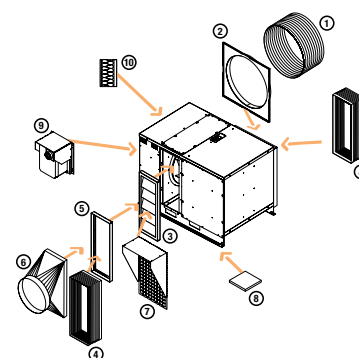

Main characteristics

- rain hood,
- bird screen.
