

Façade outlet**11094878
RAIN HOOD D710**

The screened rain hood is a façade outlet for all ventilation and air handling systems in commercial and multi-occupancy residential buildings.

Screened rain hood

PRODUCT BENEFITS

- rain protection for horizontal outlet,
- screen to protect against unwanted ingress (birds etc.).

Product description

The screened rain hood is a standard façade outlet for all ventilation and air handling systems in non-residential and multi-occupancy residential buildings. It prevents ingress from the outside (e.g. birds) and protects a horizontal outlet against rain.

Fields of application

Multi-occupancy residential housing, New, Refurbishment, Non-residential buildings

Installation

- caution: male accessory not directly compatible with fan outlets: use specific hoods or use a female connector.

Main characteristics

- galvanised steel as per EN 10346 ensuring uniformity of coating.
