

Transfer grille

11053269
RECT DAMPER SGS 500X300**Product description**

The steel rectangular SGS damper balances airflow on air diffusion or extract grilles.

Fields of application

New, Refurbishment, Non-residential buildings

Installation

- grille attachment using "S" clips,
- adjustment from front of grille using screwdriver directly on vanes or on adjustment screw (optional).

Reference arguments

- Square mesh grille 15x15 mm (AC 123) or perforated plate with 45% free surface (SC 125).
- AC models: anodised aluminium, natural satin finish.
- SC models: steel with epoxy paint finish, RAL 9010 white.
- Concealed attachment using friction clips.

Main characteristics

- steel counter-rotary damper,
- mobile vanes supported by comb preventing their vibration,
- optional adjustment screw.
