

Heat and smoke exhaust box fan accessory

# 11039178

## Rectangular flexible sleeve for air inlet T1 ProtectONE® R EL

### Product description

The rectangular flexible sleeves are used to connect the ProtectONE® R unit to smoke and heat exhaust ducting (air inlet or outlet). Their flexibility attenuates fan vibrations and makes the connection to the unit easier.

### Fields of application

New, Refurbishment, Non-residential buildings

### Installation

- sleeve attached with sheet screws on the ProtectONE® R unit connection.

### Main characteristics

- non-flammable flexible sleeve,
- 3 sizes available.
