Screw-on renovation plate for Bap'SI and Bahia Curve - White

**Product description**

Adapter plates can be used to install shaftless terminals on a deformed sleeve, shunt duct or other shaft diameter.

Fields of application

Multi-occupancy residential housing, Individual residential housing, New, Refurbishment, Non-residential buildings

Installation

- clipped onto the 150 mm duct.

Reference arguments

The screw-on plate is intended for refurbishing an existing CMEV installation in Ø160, Ø120, Ø110, Ø102, Ø99, Ø95 or Ø80, mounted on existing deformed sleeves.

The plate is screwed to the wall using 4 screws:

- either plasterboard screws Ø3.5 x L = 25 mm min. for installation on plasterboard.
- or wall plug Ø6x30 (drill hole Ø6) + screw for plug Ø4x35 for other mounting method.

Screw attachment of Bahia Curve terminals. Recommended screws: Ø 3.5 x 20 mm.

A seal ensures the plate is airtight against the wall.

4 screw covers are supplied.
