

Air/air heat pump accessory

11044324

Seal cover 20 mm (price per 1m)

Product description

The seal cover decorates and protects the façade seals when installing OXYTONE Panneau 2012. They are useful if the vent is installed flush with the building façade.

Fields of application

New, Refurbishment, Non-residential buildings

Installation

- install the seal cover between the OXYTONE Panneau vent and the façade.

Main characteristics

- 20 mm seal cover, price per linear metre.
