

**Connector****11095107**  
**T-piece ALU - D125/125**

The TE 90° Alu T-piece is used to connect two aluminium ductwork branches at an angle of 90°.

Té Equerre 90° en aluminium

**PRODUCT BENEFITS**

- range compliant with gas CMEV requirements,
- suited to systems operating in saline atmospheres.

**Product description**

The TE 90° aluminium T-piece is used to connect two aluminium ductwork branches at an angle of 90°. It ensures leak-free installation without excessive pressure losses at the junction.

**Fields of application**

Multi-occupancy residential housing, New, Refurbishment, Non-residential buildings

**Installation**

- easy assembly of interlocking accessories: ducts are female, accessories are male,
- Final seal requires sealant and/or perforated strip,
- attached to duct using self-tapping screws (4 to 6 depending on diameter).

**Reference arguments**

Application:

- Connects two ducting branches at an angle of 90° on multi-occupancy residential gas CMEV system

Description:

- T-piece aluminium diameter 125/125 mm

**Main characteristics**

- available in diameters from 125 to 500,
- aluminium 1050A-H18 (formerly A5) compliant with DTU 68.3 for gas CMEV,
- M0 fire certification.
