

InspirAIR® post-heating coil

11072247

VEX410 rain hood

Product description

Indispensable accessory for outdoor installation. The rain cowl prevents rain from entering the unit by protecting the air inlet and outlet if they are not ducted.

Fields of application

Multi-occupancy residential housing, New, Refurbishment, Non-residential buildings

Installation

- rain hoods can be attached to the opening frame, to a damper or to a rectangular duct,
- rain hoods are supplied with M8 screws and a self-adhesive EPDM seal 10x20 mm for application on the rain hood flange to ensure structural air tightness.

Main characteristics

- pre-coated steel RAL 9006.
